Think **HIGHER**  
SIENA HEIGHTS UNIVERSITY

## Ed Cox

2005 SHU GRADUATE  
LANSING CENTER  
BACHELOR'S DEGREE,  
AVIATION FLIGHT  
TECHNOLOGY  
PERRY, MICH.

A professional pilot the past 23 years, Cox has flown for commercial airlines, corporations and charter air taxi companies. He has served as a certified flight instructor for 16 years and currently is the director of the aviation program at Lansing Community College.

### Why Siena?

"The instruction was absolutely superb. I have some knowledge about the teaching process, and I found Siena's professors to be of the highest quality. Student services at the Lansing location were the best I have encountered, and I have worked with four different colleges and universities. I was able to work my normal schedule while attaining my bachelor's degree. I have already seen the results: I have been promoted to the director's position here at LCC. ... Siena was simply the best."

## Available Minors

Siena Heights University offers a number of optional minors for students who would like to focus their elective credits in one area. The credits taken as part of these minors fit into the "Elective Credits to be taken at SHU" area listed in the next column (21 credit hours), though some are a better fit than others. The following minors are available:

**Health Care Management  
Management**

## BAS Curriculum

Liberal Arts Education Requirements at SHU	Credits
LAS 301 The Adult Learner	3
An Approved Philosophy or Religious studies course	3
LAS 401 Senior Seminar: Integrative Experience	3

Electives to be taken at SHU	Credits
7 elective courses (3 credits each) to fill the remainder of the 30 credit hour residency requirement	21

**Total Hours At SHU to complete BAS Degree 30**

Candidates for the bachelor's degree must fulfill a liberal arts requirement and must demonstrate proficiency in writing and mathematics.

### Other Available SHU Degrees/Majors

Though the Bachelor of Applied Science degree program is probably best suited for working professionals, there are other majors offered by the Siena Heights University Lansing Program. Additional majors include Bachelor of Arts degree programs in **community services, multidisciplinary studies** and **professional communications**. Speak to a Siena Heights University advisor to see how your completed LCC degree program might transfer into one of these additional majors.

If you are interested in transferring to **SHU @ LCC** with a different curriculum or before you have the full 90 semester hours, please call and talk to an advisor.

We can develop a transfer plan that will work for you!
