

## Viewing the Presentation in Slide Show View

Slide Show View is used to present the presentation to an audience. There is more than one way to view the show in Slide Show View.

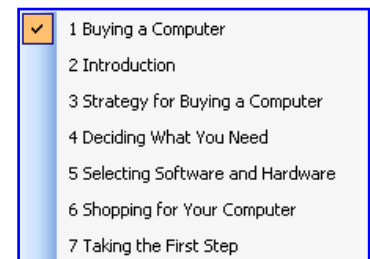

### Starting Slide Show View

- ❖ Open the presentation.
- ❖ Do one of the following:
  - Click the **Slide Show** button (see illustration at right) in the lower-left corner of the PowerPoint window, just above the status bar.
  - Click **View** on the **Menu Bar** and then click **Slide Show**.
  - Click **Slide Show** on the **Menu Bar** and then click **View Slide Show**.
  - Click the **Slide Show** button (see illustration at right) on the **Slide Transition Task Pane**.

### Using the Popup Toolbar to Go to a Specific Slide

- ❖ View the Slide Show using one of the options described in the previous section.
- ❖ Do one of the following:
  - Right-click the slide and point to **Go to Slide**.
  - Move the mouse pointer to the lower left corner of the slide, click the **Navigation** button (see illustration at right), and point to **Go to Slide**.
  - The **Navigation** button could be a different color depending on the **Design** template that was chosen.
- ❖ A list of the slides in the presentation will appear (see illustration at right).
- ❖ Click the **Slide** that you want to go to.
- ❖ The selected slide will appear.

### Using the Popup Menu to End a Slide Show

- ❖ Do one of the following:
  - Right-click the slide and click **End Show**.
  - Move the mouse pointer to the lower left corner of the slide, click the **Navigation** button, and click **End Show**.
- ❖ It is also possible to end a show by pressing the **Esc** key on the keyboard.
