

## CHANGING THE SLIDE COLOR SCHEME

The Color Scheme is used to make changes to the Design of the presentation. This does not change the template, just the design for the current presentation.

- ✦ Click the **Design Tab**.
- ✦ In the **Themes Group**, click the **Colors** button.
- ✦ Move the mouse pointer over each of the **Color Schemes** to see the different colors that can be applied to the theme.
- ✦ Click the **Create New Theme Colors** link.
- ✦ The **Create New Theme Colors** dialog box will display (see illustration on next page).
- ✦ Under the **Themes** list, click each of the arrows to choose new colors for the theme.
- ✦ A gallery of **Theme Colors** will display (see illustration below).

- ✦ To apply a theme color to the object, click any of the colors in the **Theme Colors** gallery.
- ✦ To select a standard color, click a color in the **Standard Colors** row.
- ✦ To select additional colors, click the **More Colors** button.
- ✦ The **Colors** gallery will display.
- ✦ Click any of the colors on the **Standard** tab to select it.
- ✦ To make changes to the color, click the **Custom** button.
- ✦ After making all the changes, click the **Save** button.
