

## PHOTO ALBUM

---

This feature is used to create a presentation that can be created to display personal or business pictures. Effects such as slide transitions and colorful backgrounds and themes may be included in the presentation. After the pictures have been added to the album, captions may be added. Also, the order and layout of the slides may be changed. Frames can be added to the pictures. The photo album can be shared with others by adding it as an attachment to an e-mail message, publishing it to the Web, or printing a copy of the presentation.

### Creating a Photo Album

- ✦ Click the **Insert Tab**.
- ✦ In the **Illustrations Group**, click the **Photo Album** arrow.
- ✦ Click the **New Photo Album** link.
- ✦ The **Photo Album** dialog box will display (see illustration).

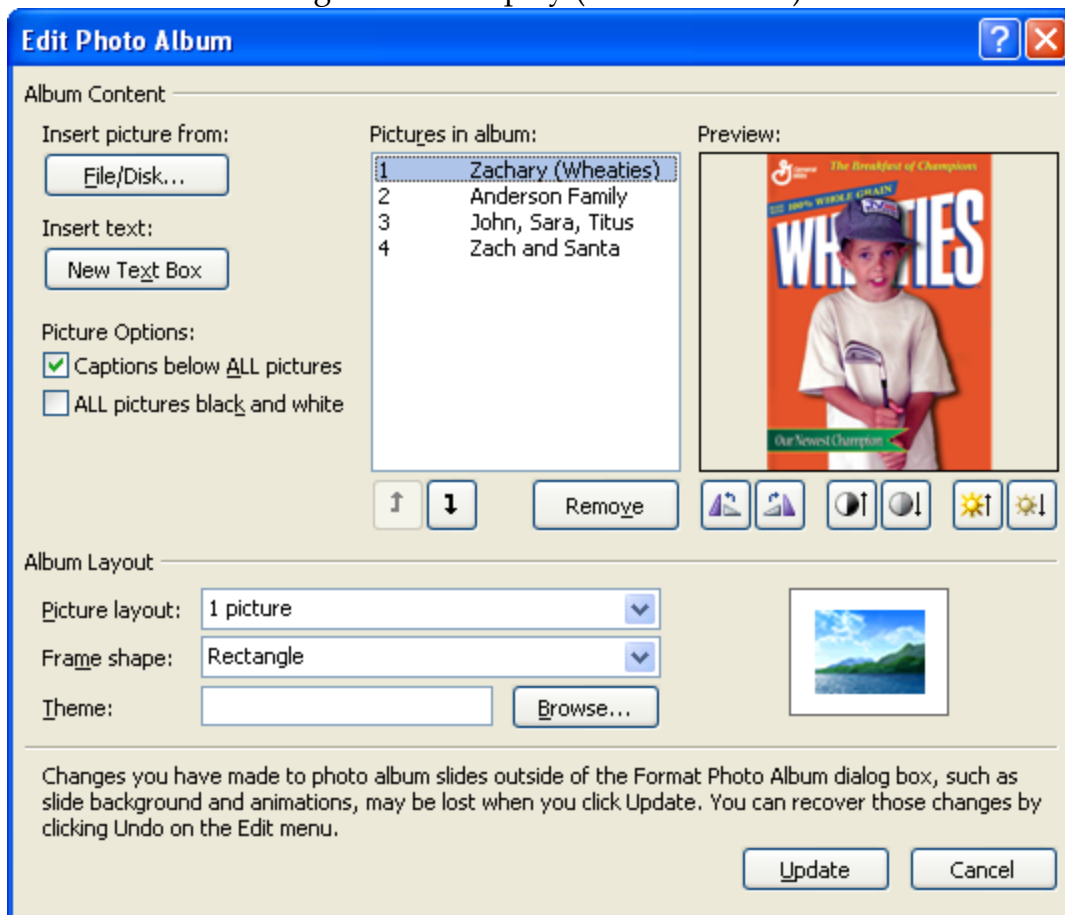

- ✦ Click the **File/Disk** button.
