

## CHANGING PAGE BACKGROUND COLOR

---

When working with the Notebook software, it is possible to change the color of the background of a selected page. When the background color is changed, the objects on the page are not affected. To change the background color:

- ✦ Press **Format** on the **Menu Bar**.
- ✦ Select **Background Color** from the list that appears.
- ✦ A color palette will open.
- ✦ Select a color from the palette that will be used for the background.
- ✦ To define a custom color or to select from a gallery of additional colors, press the **More** button at the bottom of the palette.
- ✦ The page background will be changed to the selected color.
