

## Add True-False Questions

This type of question can be auto-graded. When the student takes the test or quiz, the score will automatically appear in the Gradebook.

- ❖ In the **Add** list, select **New True-False Question**.
- ❖ Click the **Add** button on the right side of the window.
- ❖ The **Add True-False Question** window will display (see illustration below).

The screenshot shows a dialog box titled "Add True/False Question". At the top, there are "Add" and "Cancel" buttons. Below the title bar, there is a large text area labeled "Question :". Underneath the question area are three small icons: a pencil, a double-headed arrow, and a magnifying glass. Below these icons is a "Points : " label followed by a small input box. Underneath the points box is a "Correct Response : " label followed by a "Responses" link. To the right of the "Responses" link is a "True Explanation (Optional)" label followed by a large text area. At the bottom left, there is a radio button labeled "True".

- ❖ In the **Question** box, input the text for the question.
- ❖ Input the number of points that this question is worth in the **Points** box.
- ❖ Click the option button for either **True** or **False** to specify the correct answer.
- ❖ Input an **Explanation** for the question, if desired.
- ❖ Click the **Add** button to insert the question into the test or quiz.
- ❖ A message will appear saying the question has been added successfully.
- ❖ Click **OK** to return to the **Exam Content Item** window.
